## January Artist of the Month— Julie Fakler, Faribault

Julie has been painting and drawing as long as she can remember. She started painting domestic animals exclusively after my sister and I spent a summer on a hobby farm. Living with the animals gave her a new appreciation for the animal's physical attributes, their personalities and lives. Before painting the animals she prefers to spend time with them and getting to know them. Her goal is to capture their form and personality. "The anti-social cat, the over affectionate dog, the protective donkey they all give me inspiration to paint" stated Julie. Many of her paintings are of domestic felines that she shares her house with. They are her models, muses and companions. Julie plans to continue painting a variety of domestic animal, and looks forward to sharing her painting and drawing with others who share her passion of animals.
